Irwin Allen presents his boldest and most expensive show, *Land of the Giants*. Premiering in 1968, *Giants* has built up a devoted fan base over the past four decades, thanks to its heady mix of mind blowing special effects, suspense and pure escapism.

It's 1983. Sub-orbital spaceship the Spindrifft is en route from Los Angeles to London. Mid-flight, the craft is drawn into a space storm, forcing it to crash on a hostile planet where 'little people' are hunted down by Giants. Join Captain Steve Burton and his crew and passengers as they battle for their lives in this complete collection of *Land of the Giants!*
